

# Ford Romania Intern Program Internship Workplan

<b>Function Name:</b>	T C & FINAL	<b>Supervisor Name:</b>	Ovidiu Cristea
<b>Department Name:</b>	Maintenance	<b>Supervisor CDSID:</b>	ocristea
<b>Assignment Location:</b>	Craiova	<b>Supervisor Position#:</b>	Manager
<b>Project Description</b>			

The internship is going to get knowledge about modern Maintenance processes and how these are linked with other systems in the Company (production, engineering, logistics, e.g.)

The internship will get knowledge about the elimination of ergonomic issues at Front Cross Member subassembly and how this process is a part of Lean manufacturing concept.

## Measurable Objectives

- The internship will be expected to be able to demonstrate that they have learned how important is ergonomic in FORD Production System ;
- At the end of the program, the internship should be able to modify the front cross member frame handling without picking it up from trolley and turning it to seat on preparation table (100% manual process);
- At the end of the program the internship will be assessed on team work behavior, communication and accuracy of the task completed.

## Expected Major Contributions

- Support the team in the day to day business;
- Come with “fresh eye” new ideas.

## Expected Benefits to Intern

- Get knowledge of Maintenance procedures used in automotive companies.
- Exposure to a wide variety of manufacturing and business related activities.
- Be a part of a Global team and of cross functional projects.

## Intern Qualifications (schooling, work experience, major)

- Must be studying for Mechanical & Electrical related degree.
- Have a high level of English and computer skills.
